

NEREUS STEEL

Nereus steel is the product of over twenty years' experience in product design and fabrication. Specialising in metal work we take care of those jobs which always seem to bring projects to a halt.

We're an engineering jobbing shop company and our core services are as follows:

Operations:

We're a Cape Town based company with a fabrication facility in Table View. We have additional manufacturing premise in George, Western Cape.

Materials:

We specialise in Aluminium, Stainless Steel and Mild Steels. Disciplines we work in include Sheet metal fabrication, profile fabrications, Turning, Milling, Shaping, arc welding, Tig welding.

Bespoke:

Custom work is what we're all about. Based on the customers' requirements we create specialised designs with personalised costing.

Variety:

No matter how simple a project is on its face there is no end to the details that make up its whole. Nereus steel has you covered and will help you cut straight to the solution.
